

When you start NSMXpress »nsm_setup« utility you get following ERROR

```
#nsm_setup
```

ERROR messages:

```
##### PERFORMING PRE-INSTALLATION TASKS #####
```

Unknown flags: -niBYPASSMIGRATION=n

Run '/var/install/NSM-RS --help' for a listing of command-line parameters[root@NSMXpress-ERC admin]#

Solution:

1. Opened the directory nsm-install-scripts present under /usr/share

```
#cd /usr/share/nsm-install-scripts/
```

2. Opened the nsm_script_vals.txt in vi editor

```
#vi nsm_script_vals.txt
```

3. Commented the flag -niBYPASSMIGRATION=n by putting a hash symbol.

```
#-niBYPASSMIGRATION=n
```

4. Saved the changes

```
:wq!
```

5. Run nsm_setup

```
#nsm_setup
```
